Lab Investigations

Test	Result	Normal Range
Hemoglobin	11.2 g/dL	13.5 - 17.5 g/dL
WBC Count	12,000 / μ L	4,000 - 10,000 / μ L
Blood Sugar (Fasting)	140 mg/dL	70 - 110 mg/dL
Chest X-Ray	Mild lung infection	Normal

Doctor's Note:

Findings are suggestive of a possible lower respiratory tract infection. Recommend antibiotics, supportive care, and further evaluation if symptoms persist.
